DETAILED ACTION

Allowable Subject Matter

Claims 1-38 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing a passivating system for use in semiconductor devices comprising a first structure of a semiconductor material and a second structure of an insulative material with a passivation species comprising hydrogen species derived from an ammonia exposure in combination with an encapsulant layer positioned to contain the hydrogen species at the interface or within the first or second structures. All independent claims 1, 22, 29 and 34 contain this allowable subject matter and are therefore deemed allowable along with their dependent claims, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
